

## Imatra Elekter AS-i võrgupiirkonna üldteenuse arvutamise meetodika 2014 Detsember

Üldteenuse hinna arvutamise meetodika on kirjeldatud Imatra Elekter AS-i üldteenuse tüüptingimustes järgnevalt:

4.2. Müüja arvutab üldteenuse korras muudava elektrienergia kalendrikuu hinna selles kuus üldteenuse korras müüdüd elektrienergia tunnipõhiste koguste ning elektribörsil avaldatud tunnipõhiste elektrihindade omavahel kaalutud keskmise hinna alusel. Müüja lisab üldteenuse korras müüdüd elektrienergia hinnale üldteenuse osutamisega seotud põhjendatud kulud ning mõistliku kasumi.

Üldteenuse

põhitariifi hinna arvutab Müüja üldteenust põhitariifi alusel tarbivate tarbijate tarbimiskoguste alusel. Üldteenuse päeva- ja öötariifi hinna arvutab Müüja üldteenust ajatariifsel tarbivate tarbijate tarbimiskoguste alusel. Seejuures kujuneb päevatariif eelpool nimetatud tarbijate päevatariifi kehtimise ajal tarbitud koguste ja sellele vastava elektribörsi hinna alusel ning öötariif eelpoolnimetatud tarbijate öötariifi kehtimise ajal tarbitud koguste ja sellele vastava elektribörsi hinna alusel.

4.3. Võrguettevõtte avaldab kalendrikuus üldteenuse korras müüdüd elektrienergia hinna koos selle aluseks olevate andmete ja arvutuskäiguga oma veebilehel ([www.imatraelekter.ee](http://www.imatraelekter.ee)) järgmise kuu 9. (ühesandaks) kuupäevaks, eristades hinnakirjas selgelt põhi-, päeva- ja öötariifi ning hindadele lisatavad marginaalid.

Tabel 1. Mõõtepunktide arv ja müüdüd elektrinenergia kogus

| Mõõtepunkti tunnus    | Mõõtepunkte<br>tk | Elektrienergia<br>kWh |
|-----------------------|-------------------|-----------------------|
| 1-tariifne            | 8626              | 1464374,198           |
| 2-tariifne            | 2684              | 1787831,237           |
| <i>sh päevatariif</i> |                   | 935760,04             |
| <i>öötariif</i>       |                   | 852071,197            |
| <b>KOKKU</b>          | <b>11310</b>      | <b>3252205,435</b>    |

Tabel 2. Kaalutud keskmised ja müügi marginaal

| Tariif      | Kaalutud keskmine<br>s/kWh | Marginaal<br>s/kWh | Hind, s/kWh<br>KM-ta | Hind, s/kWh<br>KM-ga |
|-------------|----------------------------|--------------------|----------------------|----------------------|
| Üldtariif   | 3,886                      | 0,584              | 4,470                | 5,364                |
| Päevatariif | 4,470                      | 0,584              | 5,054                | 6,065                |
| Öötariif    | 3,143                      | 0,584              | 3,727                | 4,472                |

Tabel 3. Detailne tunnitariimiste tabel koos Nord Pool Spot elektribörsi hindadega (käibemaksuta)

| Kuupäev | Tund, EET | Tunnus, päev/öö | Üldtariif, kWh | Ajatariff, kWh | NPS, s/kWh |
|---------|-----------|-----------------|----------------|----------------|------------|
